

ALDRIN D. FRADES

📍 BLK 130 LOT 20 MAMATID, CABUYAO, LAGUNA ✉️ fradesaldrin18@gmail.com ☎️ 09241013536

Detail-oriented Computer Science graduate with hands-on experience in software development, web application development, and database management. Proficient in Python, Java, JavaScript, SQL, and modern web technologies, with experience building AI-driven and full-stack applications.

INTERNSHIP EXPERIENCE

Software Engineer Intern | Public Employment Services Offices (PESO) - Cabuyao

- Developed a web-based Attendance Tracking System that digitized attendance records and reduced manual tracking efforts for office staff.
- Collaborated with office personnel to gather system requirements, identify workflow challenges, and implement user-focused application features.
- Assisted in system design, testing, debugging, and validation activities to improve usability, reliability, and overall system performance.

Production Planning and Material Control Intern | Gemphil Technologies Inc.

- Maintained and processed operational data and production records to support business planning and inventory activities.
- Organized and monitored sales forecasts and production volume reports to improve data accuracy.
- Assisted department heads in data validation and documentation management

PROJECT EXPERIENCE

AI-Based Health Access System using K-Means Clustering and NLP

- Developed an AI-powered health access system using K-Means clustering to group users based on health needs for targeted service recommendations.
- Implemented NLP-based chatbot functionality to support symptom reporting and automated health inquiries.
- Designed an end-to-end system workflow integrating data processing, clustering, and conversational AI for remote healthcare support

PESO Attendance Tracking System - Web-Based Attendance Management System

- Developed a web-based attendance tracking system using PHP, Laravel, MySQL, HTML, CSS, and JavaScript to digitize employee attendance monitoring and improve record management efficiency.
- Implemented core functionalities including employee attendance logging, record management, data retrieval, and system workflows to support daily administrative operations.
- Designed and optimized a user-friendly interface while collaborating with stakeholders to gather requirements, perform testing, troubleshoot issues, and improve overall system usability.

EDUCATION

Bachelor of Science in Computer Science

University of Cabuyao, PH | Graduated June 2026

SKILLS

Programming Languages

Python, Java, JavaScript, TypeScript, SQL

Web Technologies

HTML5, CSS3, React.js, Node.js, RESTful APIs Integration

Databases

MySQL, SQL Database Design

Software Development

Object-Oriented Programming (OOP), Software Development Life Cycle (SDLC), Requirements Gathering, System Testing, Debugging, Troubleshooting, Technical Documentation

Tools & Platforms

Microsoft Office Suite, Git (Basic Knowledge), Version Control, Data Analysis

Soft Skills

Problem Solving, Analytical Thinking, Team Collaboration, Communication, Time Management, Task Prioritization

CERTIFICATIONS

- Google Analytics Certification
- Google AI-Powered Performance Ads Certification
- Python Essentials
- Data Science Essentials with Python
